Peques Statement

Our Vision

"Our vision is a world where children are encouraged to unlock their inner potential, flourish from within, and lead the way."

Our Mission

At Peques, we recognise that parents are their children's primary educators. We work in close partnership with families in every aspect of their child's early years education and actively welcome feedback, whether positive or constructive, as part of our commitment to continuous improvement and excellence.

We believe that a child's education extends beyond the home or nursery setting. Our approach is holistic, recognising that all experiences contribute meaningfully to a child's learning, development, and sense of self.

Each child is valued and respected as an individual and within the context of their family. We place great importance on understanding our role as educators and on recognising the values, beliefs, and cultures that children bring with them. By building on these foundations, we create an environment in which every child feels accepted, respected, and valued for who they are.

Our Values and Beliefs

We honour and respect our own origins as educators and the diverse customs, cultures, and traditions of the families within our community. By acknowledging our roots with awareness and respect, we are better able to guide children as they develop confidence, pride, and a strong sense of identity.

We believe that only through acceptance and understanding of where we come from can children be supported to create their own path and look towards the future with pride and confidence.

"The joy of life comes with the acceptance and pride of our roots."
